ROAD BASELINE VS RHP 0.345 wOBA · xwOBA 0.376 · 22,691 PA	MIAMI — ALL ROWS 0.311 wOBA · xwOBA 0.362 · 1,901 PA · confounded	MIAMI — VISITING CLUB ONLY 0.337 wOBA · xwOBA 0.391 · 1,038 PA	MIAMI VS ALCANTARA 0.354 wOBA · xwOBA 0.423 · 163 PA
--	--	---	---

The one rule: the park is not the story. As visitors this group barrels 11.0% at loanDepot against a 9.4% road baseline. Hunt the slider — it is the only pitch Alcantara throws that this group both lays off and punishes.

Three things to say in the meeting

- **Harper and Schwarber are owed runs.** Their expected numbers against Alcantara (0.516 and 0.402 xwOBA) sit far above what the box scores paid. No mechanical adjustment implied — keep the approach.
- **Stott is the one real venue effect.** +0.056 wOBA in Miami on 96 PA with barrel rate, EV90, whiff rate and K rate all moving the same way. Directional, not proven.
- **Expect fewer four-seams.** Career 24.6% to this group; 16.2% in the 2025-26 window, with curveball and cutter absorbing the difference. Get the two-strike curveball look into cage work.

Every rate on this card carries its plate-appearance count. Hitters below 15 PA vs Alcantara (Sosa 10, Crawford 3, Rincones Jr. 3, Hill 1) are omitted from the plan table. Rincones Jr. has no loanDepot history. Alcantara's own cache ends 2025-04-12 — his 2026 form rests on one start (2026-06-17). Verification: 256/256 checks reconcile. Sources: out/dp_uc27_*.csv.
